ABOUT OUR COMPANY

PT. Arsy Bamun Sejahtera is a company engaged in general trading with a focus on providing equipment for industrial needs.

We are an innovative company specializing in Electrical Supply and energy-saving solutions. We are the sole agent and brand holder for EDM products such as Analog & Digital kWh Meter, etc.

We also offer consulting services and solution development to help you effectively save energy. Furthermore, as a web-based software development startup, we are committed to aligning your business needs with modern and innovative digital solutions. With the latest technology, we are ready to help improve your company's operational efficiency.

OUR CORE PRODUCT SOLUTIONS

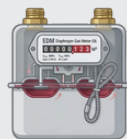

Analog & Digital kWh Meter

Analog & Digital Water Meter

Liquid & Gas Flow Meters

Diaphragm Gas Meters

Level, Pressure, Temperature, Water Quality Sensor Transmitter & Probes

VISION

Becoming a leading, growing, high-quality, and nationally competent society

MISION

Developing customer oriented business

Prioritizing Work Safety

Achieving Timely Performance

Developing Professional HR

OUR SERVICE & DIGITAL SOLUTIONS

Consulting and software development service

Custom software development for operating efficiency

COMPAY VALUES

Service Excellent

Empathy

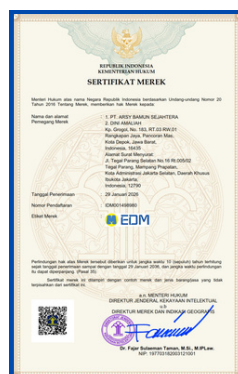

Moving Forward

OUR PRODUCT

kWh Meters

We supply all types of kWh meters—ranging from conventional to digital models—supporting both postpaid and prepaid payment systems. We also provide power meter. The Foundation of a Greener Tomorrow. Smart integration meets heritage tech: the devices that turn raw energy into data-driven efficiency.

Water Meters

We supply all types of water meters in sizes ranging from DN15 to DN300, suitable for clean water as well as wastewater or sewage. Available types include Multi-jet, Woltman, and Ultrasonic models, featuring threaded or flanged connections and pressure ratings from 10 bar up to 25 bar.

Precision in every drop. Discover the next generation of smart flow meters designed for ultimate accuracy and efficiency.

OUR PRODUCT

Flow Meters

It unifies a diverse and sophisticated suite of smart sensors, advanced flowmeters, and high-precision process controllers within a stunning stainless steel, showcasing the future of seamless, high-performance process control.

It unifies a diverse and sophisticated suite of smart sensors, advanced flowmeters, and high-precision process controllers within a stunning stainless steel, showcasing the future of seamless, high-performance process control.

OUR PRODUCT

Gas Meters

Diverse gas metering solutions, all in one place. Explore our range of models, including standard mechanical meters, LCD-equipped digital units, and fully connected smart meters with RS485 communication. Your accurate data, streamlined."

Sensor & Transmitter

Optimize your operations with a comprehensive range of advanced industrial fluid monitoring sensors. From measurements of chlorine, level, pH/ORP, pressure, and turbidity to conductivity, our instruments deliver unwavering precision.

Gateway

Unyielding Intelligence. From the MD1122 core display to our distributed smart gateways, this configuration is a masterclass in industrial connectivity and robust data acquisition. True edge intelligence, visualized

PROJECT REFERENCE

kWh Metrics (Electrical Systems)

- Prepaid Card kWh Meters
- Pasar Mayestik - Jakarta
- Pasar Tanah Abang Blok C - Jakarta
- Amara 51 Resident - Depok
- Soekarno Hatta Apartment - Malang
- Mall Makassar
- Mall Dinoyo Malang - East Java
- Rest Area 207A
- Ciumbuleuit Apartment - Bandung
- Easton Park Serpong Apartment - Banten
- Rusunawa Buring 2 Malang - East Java
- Syamsudin Noor Airport - East Kalimantan
- Mendjangan Mansion Resident - Jakarta
- Amara 51 Resident Depok - West Java
- Nikara Resident - Jakarta

Digital Modbus kWh Metrics

- Centennial Tower - Jakarta
- The Park Sawangan - Depok
- Talavera Suites Office - Jakarta

Analog kWh Metrics

- Mall Taman Palem - Jakarta

PROJECT REFERENCE

Flow Meters & Water Meters (Flow/Water Measurement)

- Clamp-On Ultrasonic Flow Meters
- Cirebon Super Block Mall - West Java
- Booster Kavaleri PDAM Makassar - Sulawesi
- PDAM Bandung City
- Bekaert Indonesia, Cikarang - West Java
- Electromagnetic Flow Meters
- Batang Integrated Industrial Zone BPSP - Central Java
- Intake BTIIG Morowali - Sulawesi

Modbus Water Meters

- Hotel Fugo - Kalimantan
- Water Meters
- Citimall Tuban - East Java
- Gas Meters & Gas Sensors
- Digital Turbine Gas Meters
- Citimall Bontang - Kalimantan

Gas Pressure Sensor Transmitters

- RSUD Merah Putih Magelang Regency

Multi-Product Combinations

- Siloam Hospital Group: Clamp-On Ultrasonic Flow Meter, Solar Turbine Flow Meter & Digital Modbus kWh Meter
- The Park Kendari - Sulawesi: Water Meter & Modbus Gas Meter
- Citimall Garut - West Java: Modbus Water Meter & Digital Turbine Gas Meter
- Citimall Gorontalo - Sulawesi: Digital kWh Meter & Water Meter
- JW Marriott Hotel Medan: Digital Modbus kWh Meter & Clamp-On Ultrasonic Flow Meter
- TA'AKTANA, a Luxury Collection Resort Labuan Bajo - Nusa Tenggara: Level Sensor, pH Sensor Transmitter & Duct CO2 Sensor
